

It's NOT JUST A Cleaning Anymore...

We hope you just had a great new dental experience and enjoyed your visit.

Today, we did not JUST do a cleaning. We also:

- Performed an Oral Cancer Exam
- Checked your gums for blood, pus or pockets
- Checked for decay
- Took x-rays to check for cavities in between the teeth and infections
- Checked your fillings for leaks and cracks
- Checked for loose teeth, shifting and drifting teeth
- Checked your bite for wear facets and TMJ problems
- Evaluated your smile for orthodontic and cosmetic issues
- Consulted with you about your concerns

Remember that regular cleanings and examinations are the key to long term oral health.

We are reserving time specifically for you at your next re-care appointment. We will do everything in our power to get you in and out on time. For that, we need your help! Please direct us to a time of day that works best and where there will be the least chances of something coming up that would interrupt your treatment. Any changes in the schedule affects many people.

Be safe and keep smiling. We will see you soon!
