

Investment in *optimal health* is by far your wisest long-term decision. Just Smiles is very proud of the dentistry that we provide for you and your family and we strive to *exceed* your expectations. Our goal is not to just correct any dental problems you may have, but to show you how to prevent dental disease in the future to save you time and unnecessary expense.

The long term success of the dental treatment we provide depends upon your continuing home care, routine professional cleanings, exams and, if necessary, the use of adjunct treatments. We recommend at the minimum that routine visits be 6 months apart. So many factors influence the longevity of dental restorations that our best estimates are simply that: estimates! However, it is our pleasure to offer you what we believe to be a **unique value**:

DENTAL SEALANTS

Sealants are plastic coatings which are placed on the chewing surfaces of adult teeth to help protect against decay in the pits and grooves. These are the most common areas to develop dental cavities in children. Floss and fluoride will help to prevent decay between the teeth. We will repair or replace sealants for a period of 5 years after placement, only if you visit us every 6 months. If decay is present on the chewing surface, the cost of the sealant will be credited to the new filling.

COMPOSITE (WHITE) FILLINGS

If a composite restoration is the recommended treatment of choice, we will replace or repair it in the event of failure for a period of 3 years. If the tooth breaks within 3 years and requires a crown or onlay, we will credit the cost of the filling towards the crown or onlay only if the patient presented for every 6 month recall appointment.

CROWNS, BRIDGES, INLAYS, ONLAYS AND PORCELAIN VENEERS

We will warranty these most comprehensive procedures for a full 5 years. If *our* crowns, porcelain veneers, or onlays need replacement, and the tooth is still savable *and* you do your part (see below) we will:

- Replace any crown with a new crown of the same type
 - Replace any porcelain veneer with a new veneer
 - Replace any onlay with a new onlay
1. For the first three years at ***no charge***
 2. For the fourth year at ***50% fee***
 3. For the fifth year at ***80% fee***

We cannot predict if and/or when gum or nerve treatments (such as a root canal) may be required. If needed, they would require additional fees. If the fracture is due to patient negligence (such as chewing on ice or very hard foods) or trauma, the warranty will be void.

This warranty does not cover accidents that cause damage to the teeth. All services must be performed in a Just Smiles facility in order to be considered valid. You must visit our office for **a minimum of 2 times** (4 if we recommended due to gum condition) per calendar year for professional cleanings. If you move out of central Ohio, one professional cleaning & check-up in our office annually will be sufficient to maintain this agreement! You also must complete (in our office) all recommended treatment in the quadrant (the section of the mouth in which the tooth is located) and adjunct procedures such as nightguards if recommended. Your path to optimal health requires a comprehensive approach to care.
