

Dear Patients,

Please be advised that due to orders from the Ohio Department of Health and the Ohio Dental Board, we want let you know that as of Thursday, March 19th we will be unable to provide routine and non-urgent treatment to our patients. Therefore, our office is now closed by State Mandate and all appointments are cancelled until further notice. If you are experiencing a true dental emergency such as pain, throbbing, swelling or infection, please call 614-777-8668 and press 2 to leave a message and Dr. Phil Chahine will contact you. He will be using current methods of tele-dentistry to triage your condition and to determine the best course of action. If need be, you will be seen in our Hilliard office for emergency treatment.

We want to remind you that this is mandated by the State and not a decision that we have any control over. We truly wish the situation was different and that we would be allowed to take care of you.

As soon as we are informed that we can return to business as usual, one of our team members will contact anyone that had an appointment affected by this crisis.

We thank you for your understanding and please stay healthy!

Dr. Phil Chahine and the Just Smiles Team
